Our Core Services

What can we help you with?

Workers' Compensation Defense

The attorneys at Martinez Roman Goehl have over 20 years of experience in the area of Florida workers' compensation law. We consistently track any legislative bills and judicial rulings in order to best represent our clients. Our clientele includes municipalities, national insurers, and carriers.

Uninsured Employer Defense

Martinez Roman Goehl defends uninsured employers against workers' compensation claims. Navigating Florida workers' compensation law in an uninsured employer can be both challenging and frustrating. Our attorneys will assist in operations, work and those recommendations that allow you to focus on your business rather than potential litigation.

Longshore and Harbor Workers' Compensation Defense

With the second largest coastline in the United States of 1,350 miles, Florida is a hub for longshore and harbor workers' compensation claims. The Longshore and Harbor Workers' Compensation Act (LHWCA) is governed by federal law and provides for the payment of compensation, medical care, and vocational rehabilitation services to employees.

Appeals

Ever after a trip has ended and a judge has made his or her ruling, the case may be appealed to a higher court. The appellate process requires a different set of rules and procedures. At Martinez Roman Goehl, we have experience filing and defending appeals to the First District Court of Appeals and the Florida Supreme Court.

American with Disabilities Act (ADA) Defense

At Martinez Roman Goehl, we defend businesses facing ADA Title II lawsuits. The Americans with Disabilities Act of 1990 (ADA) requires discrimination and ensure equal opportunity for persons with disabilities in employment, government services, public accommodations, commercial facilities, and transportation.

Work Injury Defense

Work accidents are unfortunately going to happen. We are here to help you search and guide to determine whether you want an expedited settlement or request a permanent settlement. We will do our best to calculate and estimate your full overall exposure including work and disabilities of future. We will partner with you and work tirelessly to ensure that works best for you.

BUSINESS LITIGATION LAW

The field of Business Litigation deals with issues that may arise in business and other commercial relationships. Companies, regardless of size or reach, will often be forced to confront and resolve disputes that arise with other parties.

These business conflicts may be based in issues such as contract disputes, co-owner disputes, creditor and debtor claims, intellectual property disputes, violations of publicity rights and rights of privacy, defamation and business law, trade secrets, non-disclosure agreements, and non-competition agreements.

The most effective way to deal with these situations is to contact a skilled attorney as early as possible. Having the most knowledgeable lawyer working closely with a business attorney can effectively reduce your exposure for disputes and to manage problems when they do occur.

Partner with a law firm who will personalize their methods to best meet your unique needs. Give Rogero Law a call at (305) 999-0020 or click here to message one of our dedicated professionals right now. We look forward to working with you.

FAQS

What is Intellectual Property?

Intellectual property encompasses many of the areas that have already been addressed above. Copyright and trademark law are subcategories under the broader umbrella of intellectual property. By definition, Intellectual Property is something that is created in a person's mind, such as an idea, invention, or creative work. An individual has the right to claiming ownership over these original, creative thoughts.

Our professionals at Rogero Law are experienced in protecting intellectual property. Whether you're looking to register a copyright claim for your business or ensure that your product is patented, we can assist you in all of these areas. We recognize how important intellectual property protection is and we strive to keep our clients covered at all times.

Business Retention Disputes

Business retention disputes can arise in many forms and their resolution depends, in part, on the underlying agreements between them. This requires it to be clear that all of the parties to the contract understand the obligations, responsibilities, and the consequences of each. Our attorneys are available to help you understand and resolve these issues. We provide reasonable and effective advice with the goal of helping our clients to resolve the matter. When a dispute arises with an uncooperative partner, we identify and resolve any legal advantages available.
